

AGREEMENT OF THE BOARD OF DIRECTORS OF LANTIK, S.A.M.P., approving the regulatory bases and announcing the call for the first programme to promote projects related to quantum technologies (BIQAIN).

I

LANTIK, S.A.M.P., an IT company owned by the Bizkaia Provincial Council, aims to carry out the IT work necessary for the development of activities and the provision of public services by the Bizkaia Provincial Council, Provincial Public Bodies and dependent Provincial Public Companies. This is in addition to the provision of study, advisory and training services to the Bizkaia Provincial Council and dependent bodies in the fields of IT, organisation, economic and administrative management, tax, legal and financial matters, as well as the provision of services for the collection, processing, distribution and dissemination of information, regardless of the medium used.

The Bizkaia Provincial Council has established as one of Lantik's tasks, within the framework of its corporate purpose, assistance in promoting the global knowledge economy in Bizkaia in relation to the so-called technology economy, as an initiative fitting within the activities carried out by the Bizkaia Provincial Council, in this case through LANTIK, to improve the competitiveness, innovation and collaboration of companies in the Historical Territory.

In this context, the Bizkaia Provincial Council and Lantik have identified an area of technological expertise which, according to leading international bodies, including the European Union, could become a powerful lever for boosting the socio-economic fabric and competitiveness of the Historical Territory and, in particular, its industries.

This area is quantum technologies (computing and simulation, communications and cybersecurity, and sensing and metrology), around which a new sector of activity is expected to emerge, with a global market whose estimated impact on the economy is expected to be significant, given the cross-cutting effect it may have on other exponential disruptive technologies (AI, biotechnology, semiconductors, etc.), sectors (health and life sciences, energy and utilities, financial services, advanced manufacturing and industrial products, automotive and transport, etc.) and markets (local, European and global).

In this regard, in 2024, the Bizkaia Provincial Council announced its BIQAIN, Bizkaia Quantum Advanced Industries, strategy, which encompasses this programme, with the objective of improving the competitiveness and innovation of companies in the Historical Territory by promoting projects related to quantum technologies. This programme seeks to explore the applicability of these technologies to real business challenges, promote technology transfer and the development of

intellectual property, and encourage the development of talent and specialised skills in this field.

To this end, this call for applications is launched to support industrial research projects applying quantum technologies in companies, making talent and expert knowledge available to beneficiaries through a network of specialised suppliers and facilitating access to quantum platforms and infrastructures.

II

The aid covered by these bases is exempt from the obligation of prior notification to the European Commission under Commission Regulation (EU) No 651/2014 of 17 June 2014, declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (OJEU L 187 of 26/06/2014).

Provincial Regulation 5/2005 of 31 May, regulating the general legal regime for grants granted by the Provincial Administration (hereinafter, the "Provincial Regulation on Grants"), establishes in Article 3.2 that the management principles contained within it shall apply to monetary payments without consideration made by entities linked to or dependent on the Provincial Administration and governed by private law. Given that this call does not provide for monetary payments but rather access to services in kind, these constitute free contributions which, under the final paragraph of the aforementioned Article 3.2, must be directly related to the purpose of LANTIK's activity, as is the case here.

In view of the above

AGREEMENT:

One. To approve the regulatory bases and the call for the first programme to promote projects related to quantum technologies (BIQAIN), the content of which is attached as an annex to this Agreement.

Two. To proceed with the publication of the regulatory bases on the website of LANTIK S.A.M.P.

Three. To authorise the following persons to publish this Agreement and carry out all procedures related to the call for applications, including the awarding of aid, as the Programme Committee.

- Head of Administration at LANTIK, S.A.M.P.
- Deputy General Manager at LANTIK, S.A.M.P.
- Head of the Innovation Unit at LANTIK S.A.M.P.

The Programme Committee shall be assisted by the Evaluation Committee provided for in the Bases.

Four. This Agreement shall take effect from the day following its publication on the website of LANTIK S.A.M.P.

Five. Protection of personal data

1. In compliance with Article 13 of Regulation 2016/679 (EU) on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and Article 11 of Organic Law 3/2018 of 5 December, on the Protection of Personal Data and the Guarantee of Digital Rights, and as a result of the management of requests and related actions, personal data shall be processed as follows:

- Processing activity: Management and control of project promotion actions.
- Data controller: LANTIK's Innovation Department. S.A.M.P.
- Purpose of processing: Management and control of actions to promote projects related to quantum technologies.
- Rights of the data subject: Data subjects may exercise their rights of access, rectification, objection, erasure, restriction of processing and not to be subject to automated individual decision making before the data controller by writing to LANTIK S.A.M.P., which can be submitted at:
 - o [ARSOLP Lantik rights](#)

In accordance with the certification issued by the Secretary of the Board of Directors, including the aforementioned agreement, and in execution of its third point, the call for applications and its regulatory bases are hereby published.

In Bilbao, on 5 May 2025.

Signature of the persons appointed as the Programme Committee.

REGULATORY BASES AND CALL FOR THE FIRST PROGRAMME TO PROMOTE PROJECTS RELATED TO QUANTUM TECHNOLOGIES “BIQAIN”

TABLE OF CONTENTS

TÍTULO I - DISPOSICIONES GENERALES

- Base 1. Objetivo del programa
- Base 2. Definiciones
- Base 3. Beneficiarios del programa
- Base 4. Hecho susceptible de ayuda
- Base 5. Modalidad y cuantificación de las ayudas.
- Base 6. Gastos susceptibles de ayuda
- Base 7. Dotación presupuestaria

TÍTULO II - RÉGIMEN JURÍDICO

- Base 8. Régimen jurídico y naturaleza de la ayuda
- Base 9. Órganos competentes
- Base 10. Incumplimiento y reintegro

TÍTULO III - PROCEDIMIENTO DE CONCESIÓN

- Base 11. Lugar, forma y plazo en que deben presentarse las solicitudes de ayuda
- Base 12. Documentación necesaria para la solicitud
- Base 13. Subsanción o mejora de la solicitud
- Base 14. Procedimiento de concesión
- Base 15. Resolución
- Base 16. Recursos
- Base 17. Modificación de la resolución de concesión
- Base 18. Publicidad e información de las ayudas concedidas
- Base 19. Difusión de la ayuda concedida por la persona beneficiaria
- Base 20. Notificación electrónica

TÍTULO IV - EJECUCIÓN, JUSTIFICACIÓN Y CONTROL

- Base 21. Plazo de ejecución

- Base 22. Plazo de justificación
- Base 23. Condiciones de subcontratación
- Base 24. Justificación de las ayudas
- Base 25. Acceso a la ayuda en especie
- Base 26. Compatibilidad de las ayudas
- Base 27. Otras obligaciones de las personas beneficiarias

ANEXO I - RELACIÓN DE ACTIVIDADES ECONÓMICAS

ANEXO II – INTENSIDADES MÁXIMAS DE AYUDA

TITLE I - GENERAL PROVISIONS

Base 1. Objective of the programme

This programme aims to improve the competitiveness and innovation of companies in the Historical Territory of Bizkaia by promoting projects related to quantum technologies that explore their applicability to real business challenges, promote technology transfer and the development of intellectual property, and encourage the development of talent and specialised skills in this field.

Base 2. Definitions

For the purposes of these bases and call for applications, the following definitions shall apply:

a) “Undertaking”: Within the meaning of the Commission Communication on the concept of State aid as referred to in Article 107(1) of the Treaty on the Functioning of the European Union (2016/C 262/01), an undertaking, or company, is any entity engaged in an economic activity, understood as any activity consisting of offering goods or services on a given market, regardless of its legal status and method of funding.

b) “Small and medium-sized enterprises” or “SMEs”: Enterprises that meet the criteria set out in the Commission Recommendation of 6 May 2003 concerning the definition of micro, small and medium-sized enterprises, namely enterprises which employ fewer than 250 persons and whose annual turnover does not exceed 50 million euros or whose annual balance sheet total does not exceed 43 million euros.

Within SMEs, a “small enterprise” is defined as an enterprise which employs fewer than 50 persons and whose annual turnover or annual balance sheet total does not exceed ten million euros.

Within SMEs, a “microenterprise” is defined as an enterprise which employs fewer than ten persons and whose annual turnover or annual balance sheet total does not exceed two million euros.

c) “Production centre”: A production unit with a specific organisation, registered as such with the labour authorities, which constitutes a workplace in accordance with Article 1.5 of Royal Legislative Decree 2/2015 of 23 October, approving the revised text of the Workers’ Statute Law.

d) “Research and knowledge dissemination body”: Any entity (e.g. universities or research centres, technology transfer bodies, innovation intermediaries or real or virtual collaborative entities focused on research), regardless of its legal personality (under public or private law) or its form of financing, whose main objective is to carry out independent fundamental research, industrial research or experimental development, or to disseminate the results of these activities widely through teaching, publication or knowledge transfer.

e) “Industrial research”: Planned research or critical studies aimed at acquiring new knowledge and skills for developing new products, processes or services, or achieving a significant improvement of existing products, processes or services, including digital products, processes or services, in any field, technology, industry or sector (including, but not limited to, digital industries and technologies such as supercomputing, quantum technologies, blockchain technologies, artificial intelligence, cybersecurity, big data and cloud technologies). Industrial research includes the creation of complex system components and may include the construction of prototypes in a laboratory environment or in an environment with simulated interfaces to existing systems, as well as pilot lines, where necessary for industrial research and, in particular, for the validation of generic technology.

f) “Effective collaboration”: Collaboration between at least two independent parties for the exchange of knowledge or technology, or to achieve a common objective based on the division of labour, in which the parties involved jointly define the scope of the collaborative project, contribute to its implementation and share its risks and results. One or more of the parties may bear the entire cost of the project and thereby relieve other parties of their financial risks. Contract research and the provision of research services are not considered forms of collaboration;

g) “Quantum technology”: A set of techniques, tools, devices, systems and solutions that exploit the properties of quantum mechanics, such as superposition and entanglement, to perform computing and simulation tasks, communications and cybersecurity, as well as sensing and metrology. For the purposes of this call, this includes not only solutions that operate directly with quantum systems but also the use of

software quantum emulators running on non-quantum systems, so-called quantum-inspired computing solutions and post-quantum cryptography.

Base 3. Programme beneficiaries

1. Companies with their own legal personality may be accepted as beneficiaries of this programme, except those expressly excluded in these bases.

2. The entities mentioned above must meet the following requirements to obtain beneficiary status:

a) Have their registered office or tax domicile in the Historical Territory of Bizkaia, or carry out the project at a workplace in Bizkaia with at least five employees where a corporate unit for the implementation of quantum technologies has been or will be created.

b) Have at least one workplace in the Historical Territory of Bizkaia where the project is carried out.

c) Carry out an activity included in the headings of the C.N.A.E. 2025 – National Classification of Economic Activities – (regulated by Royal Decree 10/2025 of 14 January approving the National Classification of Economic Activities 2025) listed in the ANNEX I – LIST OF ECONOMIC ACTIVITIES of these bases. The company must be registered for Business Tax under the relevant heading corresponding to that activity.

d) Have a minimum workforce of five people, measured in full-time annual equivalents. This requirement does not apply to newly created companies, defined as those less than five years old, mentored by BEAZ S.A.U., and which have their registered office or tax domicile in Bizkaia.

Persons linked to the company by an employment contract and included in the General Social Security Scheme shall be considered part of the workforce.

Also considered as part of the workforce are worker-members of worker cooperatives, even if not included in the General Social Security Scheme, and persons who carry out their professional or employment activity in the company but who, due to their status, cannot be registered under the General Social Security Scheme in line with points b and e of Article 305.2 of Royal Legislative Decree 8/2015 of 30 October, approving the revised text of the General Social Security Law.

Staff employed to work in overseas facilities shall not be considered part of the workforce.

In the case of reduced working hours due to care responsibilities for children or dependants, full-time hours may be counted at the applicant's request, without taking into account the reduction.

e) Be up to date with tax obligations, Social Security payments and repayment of grants. In addition, pursuant to Article 13.3 bis of Law 38/2003 of 17 November on General Grants (hereinafter, "Law 38/2003"), for aid exceeding 30,000.00 euros, when applicants are natural persons or legal entities, other than public law entities, with a profit motive and subject to Law 3/2004 of 29 December on measures to combat late payment in commercial transactions (hereinafter, "Law 3/2004"), they must prove compliance with payment terms as set out in that article. Any funding that enables the supplier to receive early payment shall be considered valid for meeting this requirement, provided the cost is borne by the customer and is made without recourse to the supplier in the event of non-payment only. Proof of compliance with this requirement must be provided at the time of application, and failure to do so shall result in a request for rectification.

f) Not be subject to any of the circumstances listed in Article 12 of Provincial Regulation 5/2005 of 31 May, regulating the general legal regime for grants granted by the Provincial Administration (hereinafter, "Provincial Regulation 5/2005").

All requirements must be met by the application deadline and maintained through to award and payment. An exception is made for requirement d), which must be met by the application deadline. Also exempt from the above is the prohibition set out in Article 12.2.b of Provincial Regulation 5/2005, except in cases where insolvency proceedings have been declared, which must be met by the application deadline and maintained through to when the awarding is carried out.

3. Entities not eligible to apply or be beneficiaries:

a) Research and knowledge dissemination bodies.

b) Natural persons or legal entities, whether public or private, who fall under any of the circumstances listed in Article 42 of Provincial Regulation 4/2018 of 20 June on Equality between Women and Men (hereinafter, "Provincial Regulation 4/2018") or those listed in Article 23.2 of Legislative Decree 1/2023 of 16 March approving the revised text of the Law for the Equality of Women and Men and Lives Free of Gender Violence against Women (hereinafter, "Legislative Decree 1/2023").

c) Natural persons or legal entities, public or private, sanctioned by final administrative decision for any of the very serious infringements referred to in Title IV of Law 15/2022 of 12 July on equal treatment and non-discrimination.

d) Public companies and public law entities.

- e) Communities of property.
- f) Civil companies.
- g) Associations, foundations, federations, political parties and religious entities.
- h) Persons or entities subject to an outstanding recovery order following a prior decision of the European Commission declaring the aid illegal and incompatible with the internal market.
- i) Those engaged in any of the following sectors: primary production, processing or marketing of fishery, aquaculture or agricultural products, in the cases set out in Article 1.1 a), b), c) and d) of Commission Regulation (EU) 2023/2831 of 13 December 2023 on the application of Articles 107 and 108 of the Treaty on the Functioning of the European Union to de minimis aid.
- j) Those involved in the production, marketing or financing of arms, in accordance with the provisions of Law 14/2007 of 28 December, on the Charter of Justice and Solidarity with Impoverished Countries.

Base 4. Aid eligibility

1. Industrial research projects that meet the following criteria will be considered eligible for aid:

1.1. They must generate high-impact innovations in products and/or business processes that yield results in the short term and use at least one of the following quantum technologies: computing and simulation, cybersecurity and communications, and sensing.

1.2. They must fall into one of the following categories, focused on exploring the applicability of quantum technologies to real business problems and promoting innovation and business competitiveness:

a) Projects aimed at finding algorithms and use cases that apply quantum computing and simulation technologies, or make use of quantum-inspired solutions and quantum computing emulators.

b) Projects aimed at finding applications for quantum communications and cybersecurity, using technologies such as quantum key distribution (QKD), post-quantum cryptography (PQC) and/or quantum random number generation, among others.

c) Projects aimed at researching the applicability of quantum sensing and metrology in business use cases, which focus these technologies on improving existing sensing capabilities or developing new ones.

1.3. Their implementation must be carried out in effective collaboration with service providers based in the Historical Territory of Bizkaia.

1.4. It must be a predominantly industrial research project. This is the case when more than half of the project's eligible costs are generated through activities classified in the industrial research category.

1.5. For its implementation, it must comply with a maximum duration of 365 calendar days by the specialised service providers, from the date of notification of the decision.

2. Actions that are not fully linked to the core of the project submitted or that are unrelated or peripheral to it shall not be considered an integral part of the action eligible for aid. Nor shall actions of the project submitted that do not constitute eligible actions under these bases be considered an integral part of the eligible action. Consequently, applications shall be evaluated considering only those actions within the project that can be considered eligible actions.

3. The projects eligible for aid must be applicable and implemented in the applicant entity, with the benefit residing in the entity itself and remaining consistent with the purpose of its activity. Only the costs of activities linked to the development of the project and, consequently, directly applicable in the facilities in the Historical Territory of Bizkaia where they are carried out will be considered eligible for aid.

4. Any activity that is discriminatory on the basis of sex or any of the factors of multiple discrimination referred to in Article 3.1 of Legislative Decree 1/2023 shall not be considered eligible for aid.

5. Any activity or fulfilment of an objective that violates, encourages or condones practices classified as infringements in Title IV of Law 15/2022 shall not be considered eligible for aid.

6. The following projects shall not be considered eligible for aid:

a) Projects that are not directly linked to any of the activities of the company that fall within the headings listed in the ANNEX I – LIST OF ECONOMIC ACTIVITIES.

b) Projects that do not represent a novelty for the entity.

c) Company digitalisation projects and environmental innovation projects.

- d) Projects that involve a simple aesthetic redefinition of the product, modification of the product with no industrial complexity, brand management or corporate identity.
- e) Projects resulting from recurring modifications to products.
- f) Development of unique product projects for customers (customised machinery and equipment, turnkey projects, etc.), except for the part that is clearly different and innovative compared to previous applications of the technology used and where the development cost is not applicable to the sale price.
- g) Company internationalisation projects.
- h) Projects relating to quality control and the adaptation of products to specific requirements imposed by the market or by applicable regulations.
- i) “Fundamental research”, “experimental development” or feasibility studies, in accordance with the definitions set out in Regulation (EU) No 651/2014.
- j) Projects aimed at implementing planning software packages (such as ERP, CRM, CMMS, etc.).
- k) Advice on the drafting of strategic plans, business plans or similar and their subsequent revisions.
- l) Product life cycle studies.
- m) Actions aimed at any type of certification.
- n) Attendance at trade fairs, catalogues, websites and market studies.
- o) Implementation of management systems.
- p) Legal defence and responses to allegations or oppositions from other physical or legal entities to the application for a patent, utility model or design.
- q) Projects that are not applicable in a facility in the Historical Territory of Bizkaia.
- r) Projects that are clearly deficient in their definition (clarity, planning, implementation methodology, etc.) or in the resources allocated to the project (technical means, human resources, financial resources, etc.).

s) Activities that may be covered by other plans, programmes or areas of action of the Bizkaia Provincial Council. Specifically, actions that may be included in the Digital Transition, Green Transition, Bizkaia Creativa, Innobideak-Kudeabide, Promotion of Innovation in Road Infrastructure and Creation of Innovative Companies programmes will not be considered eligible for aid.

Base 5. Type and quantification of aid.

1. The aid provided under this programme, in kind, will consist of the provision of specialised and individual talent and expertise services to the beneficiary company, and/or access to quantum technology-based infrastructure and platforms, for the implementation of the projects indicated in the previous article.

Projects must have a maximum total budget of 300,000 euros (excluding VAT). The equivalent amount of aid in kind allocated to each project will be subject to the maximum aid intensities set out in Regulation (EU) No 651/2014.

Each company may be the beneficiary of one project in this call, notwithstanding the exceptional possibility of submitting a second application in accordance with the provisions of Base 11.

For each of the projects applied for, the Budget set out in ANNEX III shall be completed, breaking down the budget into the different sections or items of eligible expenditure.

2. The specialised and individual talent and expertise service will be measured in days or hours. For the purposes of quantifying the contribution of the aid, the specialised talent and expertise service will be considered to have a cost equivalent to €70/hour, excluding VAT.

3. Access to quantum technology-based infrastructure and platforms, which the beneficiary company may request for the implementation of the projects indicated in the previous article, will be assessed according to the following criteria:

Access to gate-based quantum processing units: The budget allocated for access to quantum technology-based infrastructure and platforms for the purposes of drawing up the budget and subsequently making it available to the company as aid may not exceed 7% of the total project budget.

The aid provided for in these bases shall be incompatible with the receipt of other grants or aid for the same expenditure eligible for aid from any public administration or body, whether national or of the European Union. The beneficiary must notify the managing authority, if applicable, of any additional aid received for the implementation of the funded activities as

soon as it becomes known and, in any case, before justifying use of the aid received.

Base 6. Eligible expenses

Companies applying to participate in the call must submit a COMPREHENSIVE BUDGET for the project, with a maximum total budget of 300,000 euros (excluding VAT), in which the following items are broken down and detailed separately:

1. Eligible expenses incurred by the company:

- a) Personnel costs
- b) Technological equipment
- c) Intellectual property expenses
- d) Subcontracting of services other than specialised and individual talent and expertise
- e) Consultancy services and other similar services
- f) Other expenses

2. Amounts corresponding to programme aid:

- a) Specialised and individual talent and expertise.
- b) Access to infrastructure and platforms

The characteristics and requirements of each of the above items are detailed below:

1. **Expenses eligible for aid incurred by the company:** those that, being properly justified in accordance with the regulations in force, have been incurred in a timely manner, are necessary and correspond to the nature and normal development of the project or activity; and, specifically, the following:

a) **PERSONNEL COSTS:** Internal expenses for personnel assigned to the project, in relation to work dedicated to the project presented for its duration. This includes direct personnel costs for gross salaries and social security contributions payable by the applicant (Social Security).

The hourly cost of each person shall be calculated as follows:

_____ B.C.S.S. x 12 x 1.25

No. of hours per year

Where:

1. B.C.S.S. is the monthly contribution base for common contingencies of the worker to Social Security according to the

Nominal List of Employees (RNT) or Contribution Base Report (IBC), in the case of self-employed workers, for one of the two months immediately prior to the date of application for the calculation of the aid to be awarded and the date of justification for the calculation of the justified aid. In the case of persons affiliated to other contribution schemes, a base similar to that of the general Social Security scheme will be used.

2. Number of hours per year is the number of annual working hours of the worker, according to the agreement, affected in each case by the corresponding percentage of reduction in working hours, if any. By default, 1,720 hours per year will be applied.

For the calculation of the base eligible for aid, a maximum equivalent to three full-time employees will be taken into account for companies with between five and 50 employees, and a maximum of six for companies with more than 50 employees.

The justification will accept the same maximum number of hours that was admissible at the time of the award, regardless of changes in the project deadlines.

b) **TECHNOLOGICAL EQUIPMENT:** Based on quantum technologies for the implementation of projects benefiting from the aid, as well as other non-quantum hardware devices that are required as accessories for the use of such quantum hardware.

For the purposes of justifying expenditure, in the case of investments, the depreciation costs applicable to the maximum 12-month duration of the project will be taken into account.

For the purposes of justifying expenditure, in the case of equipment acquired from third parties, the amount applicable to the months during which the project is carried out will be considered.

c) **INTELLECTUAL PROPERTY EXPENSES:** Expenses for the registration and maintenance of patents and/or protection of intellectual property resulting from projects benefiting from the aid.

d) **SUBCONTRACTING OF SERVICES OTHER THAN SPECIALISED AND INDIVIDUAL TALENT AND EXPERTISE:** Costs arising from the subcontracting of services necessary for the development of the project benefiting from the aid, subject to the provisions of Base 23.

e) **CONSULTANCY SERVICES AND OTHER SIMILAR SERVICES:** Purchase of research work, technical knowledge, expenses for attending external courses and seminars, feasibility and market studies related to the project receiving the aid. These may not exceed 20% of the total project budget.

f) **OTHER EXPENSES:** Directly related to the research activity, up to a maximum of 5% of the total project budget.

2. **Amounts corresponding to programme aid.** Specifically, the following:

a) **SPECIALISED AND INDIVIDUAL TALENT AND EXPERTISE,** measured in days or hours of the approved companies that will provide this advice within the framework of this programme. For the purposes of quantifying the contribution of the aid, specialised advice shall be considered to have a cost equivalent to €70/hour, excluding VAT .

b) **ACCESS TO INFRASTRUCTURE AND PLATFORMS:** Calculated by the company in the project budget, with a limit of up to 7% of the total project budget.

3. In the comprehensive project budget, as well as in the subsequent justification, the amounts corresponding to the programme aid may not exceed the maximum aid intensities laid down in Regulation (EU) No 651/2014, with regard to the expenses eligible for aid incurred by the company.

4. The following shall not be considered expenses eligible for aid:

a) Expenditure that cannot be clearly linked to the activity for which the aid is intended.

b) External expenses or external investments that generate supporting documents for expenses of less than 1,000 euros each (excluding VAT). Exceptionally, expenditure may be accepted if its accrual or payment has been split into instalments or batches generating supporting documents for amounts lower than those indicated, provided that there is clear and unambiguous traceability throughout the set of documents, allowing verification that the total amount associated with the same eligible expenditure item is greater than or equal to 1,000 euros.

c) Taxes and duties, including VAT (even in cases where it cannot be recovered) and excluding fees related to industrial property protection processes.

d) Indirect expenses.

e) Supplementary general expenses such as administration costs, per diems, general consumption (energy, water, courier services, postage, cleaning, telephony, security, office supplies, etc.).

f) Travel, meal and living expenses.

g) Rental expenses for fixed real estate assets.

- h) Transportation items.
- i) Painting, tiling and refurbishment of premises.
- j) Planning software packages (such as ERP, CRM, CMMS, etc.).
- k) Expenses for the implementation of any management system.
- l) Expenses for legal defence and responses to allegations or oppositions from other natural persons or legal entities to the application for a patent, utility model or design.
- m) Annual fees payable to industrial property offices.
- n) Other financial expenses, including commissions, contributions to share capital, etc., other than those expressly indicated as expenses eligible for aid.
- o) Investments that are not technologically advanced, understood as machinery and equipment widely used in the applicant's economic sector, without clearly differentiating features. An investment shall not be considered to have differentiating features in relation to a technology commonly used in the sector when the differentiation is solely due to progressive and non-disruptive advances in the performance of the machinery due to the renewal of the models offered by suppliers.
- p) Works, connections, installations or auxiliary equipment for technologically advanced investments made.
- q) Expenses or investments for which no potential supplier is indicated.
- r) Expenses incurred in commercial operations that have been paid in breach of the payment terms laid down in the applicable sectoral regulations or, failing that, in those laid down in Law 3/2004.

5. When the amount of the expenditure eligible for aid exceeds the amounts established in Law 9/2017, of 8 November, on Public Sector Contracts (hereinafter, "Law 9/2017"), for minor contracts (40,000 euros for works contracts and 15,000 euros for supply or service contracts), the beneficiary must, if subject to public sector contract law, justify compliance with said regulations. In other cases, they must request at least three offers from different suppliers prior to entering into the commitment for the provision of the service or the delivery of the goods, unless, due to the special characteristics of the expenses eligible for aid, there are not enough entities on the market that supply or provide it. It will also not be necessary to request three offers when the expenditure eligible for aid is

arranged with companies belonging to the same group or acting under the same collective brand.

The choice between the offers submitted, which must be provided in the justification or, where applicable, in the aid application, shall be made in accordance with criteria of efficiency and economy, and the choice must be expressly justified in a report when it does not correspond to the most economically advantageous offer.

6. The value of eligible expenditure in currencies other than the euro shall be converted into euros at the exchange rate on the date of payment of the invoice.

7. Expenses that are incurred and invoiced within the implementation period established in Base 21 and paid by the end of the justification period established in Base 22 are considered eligible for aid. With regard to the date of implementation of external costs, the invoice date shall be taken as a reference, provided that this does not violate the accrual accounting principle.

Base 7. Budget allocation

1. The aid and benefits that may be granted under this call for applications have a maximum allocation of 2,000,000 euros, excluding VAT.

2. The total amount of the budget allocation may be increased by agreement of the Board of Directors of LANTIK S.A.M.P.

3. In the event that the budget is exhausted and provided that the Programme has not ended (31 October 2025), applications may continue to be registered on a provisional reserve list, which will be dealt with in strict order of receipt, subject to the rejection or withdrawal of previous applications for aid that may free up part of the budget or the incorporation of new budgetary resources into the call. Under no circumstances shall the submission of an application to the provisional reserve list give rise to any rights for the applicant.

4. The exhaustion or extension of the available budget will be announced on the LANTIK S.A.M.P. website.

TITLE II - LEGAL REGIME

Base 8. Legal regime and nature of the aid

1. The aid established in this call for applications shall be governed by these bases, by private law and, with regard to the principles of

programme management and procedures, by Provincial Regulation 5/2005 and Provincial Decree 34/2010.

2. In view of the nature of the beneficiaries of this Programme and the actions covered by it, the aid provided is compatible with the internal market, in accordance with the provisions of Article 107(3) of the Treaty on the Functioning of the European Union, and is exempt from the notification requirement laid down in Article 108 of that Treaty.

The requirements and limits established in Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (hereinafter, "Regulation 651/2014") shall apply to this programme, and, in particular, Article 25 of Regulation 651/2014, as defined in the ANNEX II – MAXIMUM AID INTENSITIES of these Bases.

3. Projects eligible for aid under Regulation 651/2014 must demonstrate that the support from this Aid Programme has an incentive effect (Article 6 of Regulation 651/2014).

For these purposes, aid shall be considered to have an incentive effect if the beneficiary, before starting work on the project or activity for which aid is requested, has submitted an application for aid and this application contains at least the information specified in Article 6.2 of Regulation 651/2014.

Consequently, applications for projects or work that have already begun prior to the application for aid will not be accepted, with the start of the project or work being understood as defined in Article 2(23) of Regulation 651/2014.

Base 9. Competent bodies

1. Evaluation Committee: Applications shall be evaluated in accordance with the provisions of Title III of the Awarding Procedure by an Evaluation Committee, which shall act as a technical assistance body and shall be composed of the following persons:

- Head of the Innovation Unit of LANTIK S.A.M.P.
- Representative of the GAIA Association.
- Expert appointed on the proposal of the Head of the Innovation Unit of LANTIK S.A.M.P.

In the event of the absence or vacancy of any of the above members, the Programme Committee shall be responsible for appointing a replacement.

The Evaluation Committee shall make its decisions by majority vote and shall submit the resulting proposals to the Programme Committee for approval.

2. **Programme Committee:** The Programme Committee, made up of persons appointed by the Board of Directors of LANTIK S.A.M.P. on the proposal of the Evaluation Committee, shall be responsible for deciding on applications and shall make its decisions jointly (by unanimous vote).

Base 10. Non-compliance and reimbursement

1. The amount equivalent to the aid received shall be reimbursed and the corresponding late-payment interest shall be charged from the date of granting of the aid until the date on which the reimbursement is agreed and, where applicable, the right to receive the aid shall be lost:

a) When any of the obligations or conditions established in these bases, in the decision granting the aid or in the applicable regulations are breached.

b) When any of the grounds set out in Article 33 of Provincial Regulation 5/2005 or in Provincial Decree 34/2010 apply.

2. The late-payment interest applicable to the amounts to be reimbursed shall be that provided for in Article 34 of Provincial Regulation 5/2005.

3. The reimbursement procedure shall follow the steps set out in Title II of Provincial Regulation 5/2005 and Title III of Provincial Decree 34/2010.

4. The criteria for grading breaches of the conditions imposed when the aid was granted shall be as follows:

a) Failure to comply with spending provisions for the action for which the aid was granted, within the period established in the call for applications, shall entail the total loss of the aid granted.

b) Partial expenditure of the aid granted for the action within the period established in the call shall result in the loss of the aid corresponding to the unused part, provided that said partial use does not prevent the achievement of the objective of the action for which the aid was granted.

c) Failure to comply with the deadlines for implementation of the action shall entail the obligation to repay the amounts received together with late-payment interest. However, where the actions have not been completed within the general deadline or the extension period, but part of

them have been carried out within the deadline, the repayment obligation shall be limited to the amount of the aid for the part not carried out within the deadline, provided that this partial implementation does not prevent the achievement of the action's purpose.

d) The amount to be reimbursed in the event of partial non-compliance in the implementation or justification of the actions or expenditure shall be determined, on a proportional basis, taking into account the nature and degree of non-compliance with the conditions imposed when the aid was granted.

e) In the event of over-financing due to concurrence with other aid referred to in Article 18.3 of Provincial Regulation 5/2005, the excess amount shall be reimbursed, together with the corresponding late-payment interest. The same shall apply in the event of non-compliance with the requirements of Regulation (EU) No 651/2014 due to the maximum aid intensities being exceeded.

f) Failure to comply with the other obligations established in these bases shall result in the total or partial loss of the aid granted in accordance with the provisions of the bases and, in the absence of express provisions, the amount to be reimbursed shall be determined on a proportional basis, taking into account the nature and degree of relevance of the breach to the objective pursued and the damage to the public interest.

TITLE III - AWARD PROCEDURE

Base 11. Place, form and deadline for submitting aid applications

1. Applications must be submitted via the LANTIK S.A.M.P. website, using the application form available at www.lantik.bizkaia.eus.

2. Applications must be accompanied by the documentation listed in the following base, using the same application form for this purpose.

3. Each entity may submit one project per year/per call for applications.

Four (4) months after the submission of the application, and if there is a sufficient budget allocation available, the entity may submit a second application, regardless of whether the first was granted or not.

When an organisation submits more applications than permitted, the Evaluation Committee will notify the applicant, granting a period of ten days for the optional withdrawal of one or more of the applications. If no express response is received, only the maximum number of applications allowed will be considered, and the Evaluation Committee will only

evaluate the applications received first, with the rest of the applications being rejected automatically.

4. The deadline for submitting applications is from 8:30 on 15 May 2025 to 13:30 on 31 October 2025.

5. Applicants will be notified of the date of receipt of their application by email, as provided for in Base 20, for the purposes of determining the order of priority of applications.

Base 12. Documentation required for the application

1. Applications must be accompanied by the following administrative and technical documentation:

Application form

a) Project justification report, which shall describe the following aspects:

- Presentation of the applicant entity. Main activity, SME status, membership of a group of companies and any other information identifying or describing the company.
- Description and scope of the project.
- Problem and use case, identifying the critical areas of the company where the proposed quantum technologies are applicable (processes, products, services).
- Level of innovation and application of the proposed quantum technologies and proposed methodology.
- Impact on the company, sector and/or value chain.
- Schedule and monitoring model.
- Work team.
- Project budget, in accordance with the breakdown established in Base 6 and the template in Annex III.

b) Responsible declaration of compliance with aid eligibility requirements.

This responsible declaration of compliance with the requirements for aid beneficiaries must be submitted in accordance with the template included in Annex IV and must be electronically signed by a duly authorised person.

- c) Complete list of workers registered in the Nominal List of Employees (RNT) from all work centres in Bizkaia and the RNT, including company workers participating in the project who are assigned to workplaces outside Bizkaia in either of the two months immediately prior to the date of application. In the case of self-employed workers assigned to the company participating in the project, the Contribution Base Report must also be provided for each person, including the contribution for one of the two months immediately prior to the date of application. In the case of persons assigned to other contribution schemes who are participating in the project, documentation must be provided to enable the calculation of a base similar to that of the general Social Security scheme.
- d) Certificates of being up to date with tax and Social Security obligations.
- e) Collaboration agreement, in the case of collaborative projects.

Base 13. Correction or improvement of the application

1. If applications are not completed in full or if any of the documents required in these bases are missing, the Evaluation Committee will ask the interested party to rectify the omission or provide the required documents within ten (10) working days, stating that, if this is not done, the application will be considered withdrawn and will be archived, subject to the corresponding decision.
2. LANTIK S.A.M.P. may request any additional information it deems necessary for the proper understanding and evaluation of the applications submitted, including visits by staff from the Department and/or the collaborating entity.

Base 14. Award procedure

1. Applications will be dealt with in strict order of submission until the programme's budget allocation has been exhausted, notwithstanding any extensions that may be agreed, in accordance with the provisions of Base 7.
2. If the budget is exhausted and the Programme has not ended, applications may continue to be registered on a provisional reserve list, in accordance with the provisions of Base 7.
3. Aid will be granted through a successive competitive procedure, once the checks on the eligibility of the action and compliance with the other requirements have been carried out, until the budget allocated in the call for applications has been exhausted. Applications will therefore be examined and processed in strict order of submission.

Base 15. Decision

1. Once the applications have been examined and any defects have been corrected, the Evaluation Committee will draw up its proposals for a decision, to be submitted to the Programme Committee, which will decide whether to grant or refuse the aid.
2. The granting or refusal of aid may be grouped together in a single decision or in several decisions, which will in any case be communicated individually to the entities concerned.
3. Once the decision has been communicated, the beneficiary entities will have a period of ten (10) working days to accept it, after which, if no response has been received, it will be deemed to have been tacitly accepted.

Base 16. Resources

1. The decision may be appealed, stating the reasons, to the Board of Directors of LANTIK S.A.M.P. within one month of its notification. If the Board does not resolve the appeal within three months, the interested party may consider it rejected.
2. The interested parties may file a claim with the civil courts against the decision that brings the appeal to an end.

Base 17. Modification of the decision to grant aid

1. Beneficiary entities may request modifications to the award decision from LANTIK S.A.M.P. before the deadline for carrying out the activity for which the aid is granted. These modifications may involve an extension of the established deadlines, a reduction in the amount awarded, or a change in the actions included in the activity. Any such modifications shall be authorised when they are due to unforeseen circumstances or are necessary for the successful completion of the action, provided that the object or purpose of the aid is not altered and the rights of third parties are not harmed. Requests for modification must be submitted at least one (1) month before the end of the period for carrying out the activity for which the aid was granted.

Base 18. Publicity and information on aid granted

1. The provisions of Article 20 of Law 38/2003 of 17 November on General Grants shall be complied with by publishing the aid granted in the National Grant Database in accordance with the provisions of the aforementioned article.
2. In accordance with the provisions of Article 11 of Regulation (EU) No 651/2014, summary information on the aid measure, in the standard format set out in Annex II to the Regulation, together with a link to the full text of the aid measure, including any amendments, shall be transmitted

via the European Commission's electronic notification system (SANI - State Aid Notifications Interactive), including any amendments, within 20 working days of its entry into force.

3. In accordance with Article 12 of Regulation (EU) No 651/2014, for the purposes of monitoring and supervising the aid by the Commission, detailed records of the information and supporting documentation necessary to determine compliance with all the conditions laid down in that Regulation shall be kept for ten years from the date of granting of the last aid under the aid scheme.

4. This is notwithstanding any publications made by the competent bodies on the transparency portal of the Bizkaia Provincial Council, Bizkaia Gardena, in application of Provincial Regulation 1/2016, of 17 February, on transparency in Bizkaia (hereinafter, "Provincial Regulation 1/2016").

Base 19. Publication of the aid granted to the beneficiary

1. The beneficiary entities must publicise the public nature of the funding for the action by mentioning the aid received and including, in a visible place, the expression "Bizkaiko Foru Aldundiak eta LANTIKek lagundutako proiektua, BIQAIN Programaren barruan / Project funded by the Bizkaia Provincial Council and LANTIK, within the BIQAIN Programme" together with the logo of the Bizkaia Provincial Council and LANTIK S.A.M.P. on all materials, publications or events for public dissemination of the actions benefiting from aid.

Base 20. Communications

1. All communications relating to this aid programme, including notification of the date of receipt of applications, the decision to grant or refuse aid and any other communications, shall be made exclusively by email, using the email address provided by applicants on the application form.

2. The management of the email address provided for communication purposes, as well as any incident that prevents, hinders or delays the receipt of communications sent by LANTIK S.A.M.P. for these purposes, shall be the sole responsibility of the entities applying for and/or receiving the aid.

TITLE IV - IMPLEMENTATION, JUSTIFICATION AND CONTROL

Base 21. Implementation period

1. The projects receiving aid must begin once the decision to award the aid has been notified and must be completed within a maximum period of one (1) year from that date.

2. LANTIK S.A.M.P. may grant an extension of the implementation period under the terms and in accordance with the provisions of the following sections.

3. The beneficiary may request an extension of the implementation period under the following conditions:

a) The request must be made immediately after the alleged cause occurs and the delay suffered or likely to be suffered can be proven, and in any case at least one (1) month before the end of the implementation period.

b) The cause of the extension of the implementation period must be provided and must not be attributable to the beneficiary's wilful misconduct, fault or negligence.

c) Fortuitous events and force majeure, if applicable, shall be taken into account when deciding on the extension requested.

d) The request must be accompanied by documentation proving the alleged cause, documentation proving and justifying the delay suffered or to be suffered and, consequently, the extension period requested.

e) LANTIK S.A.M.P. may request any other documentation it deems necessary for the understanding of the request received.

f) No extension shall be granted beyond the alleged and proven delay, provided that said extension allows the purpose of the aid granted to be fulfilled and does not affect the rights of third parties.

4. The maximum extension of the execution period that may be granted is nine months.

5. The maximum period for resolving and notifying the requested extension is one (1) month from the submission of the request via the virtual office. If no express decision is notified within this period, the request shall be deemed rejected.

Base 22. Justification period

1. Beneficiary entities must submit to LANTIK S.A.M.P. justification of compliance with the conditions imposed and the achievement of the objectives set out in the grant award, within one (1) month from the end of the maximum period for carrying out the activity or project for which the aid was granted, as established in Base 21 on the implementation period, using the procedure set out in these bases.

2. However, beneficiary entities may voluntarily submit the final justification before the start of the established period.

3. If an extension of the implementation period has been granted, the deadline for submitting the final justification to the managing authority shall be (2) two months from the end of the period established in the resolution granting the extension.

4. LANTIK S.A.M.P. may grant an extension of the deadline for submitting the final justification, provided it does not exceed half the original period, the stated circumstances warrant it and the rights of third parties are not affected. Both the request and the decision regarding the extension must, in all cases, be made before the justification period expires. The request must be submitted immediately after the stated reason arises and, in any event, at least one (1) month before the end of the justification period. If no express decision is notified, the request shall be deemed rejected.

5. If the justification is not submitted within the established period, LANTIK S.A.M.P. shall require the beneficiary entity to submit it within a non-extendable period of fifteen (15) working days from the day following notification. Failure to submit the justification within the period established shall result in a requirement to repay the aid and in other liabilities as set out in Articles 37 et seq. of Provincial Regulation 5/2005.

6. The Evaluation Committee shall be responsible for verifying the justification submitted and shall submit the corresponding proposal for approval by the Programme Committee.

Base 23. Subcontracting conditions

1. A beneficiary is deemed to subcontract when it enters into agreements with third parties for the total or partial execution of the activity that is the subject of the aid. This does not include the contracting of expenses necessary for the beneficiary of the aid to carry out the activity directly. Consequently, the acquisition of machinery, equipment and consumables, the contracting of external services for specific tasks within the activity covered by the aid and other auxiliary expenses shall not be considered subcontracting.

2. The beneficiary entity may subcontract up to 50 per cent of the amount of the aid. This percentage is calculated based on the total value of all subcontracts awarded.

3. Under no circumstances may activities be subcontracted which, while increasing the cost of the activity, do not add value to its content.

4. Under no circumstances may the beneficiary entity subcontract the total or partial execution of the activities for which the aid is granted to

persons or entities referred to in Article 27.7 of Provincial Regulation 5/2005.

5. Entities entrusted with the execution of the activity must comply with the general principles and obligations set out in current gender equality regulations.

6. When the amount of the subcontracting exceeds the thresholds established in Law 9/2017 for minor contracts, beneficiaries subject to public procurement law must justify compliance with that legislation. In all other cases, beneficiaries must request at least three offers from different suppliers before committing to the provision of the service or delivery of the goods, unless the specific nature of the expenses eligible for aid means there are not enough suppliers in the market that supply or provide it, or unless the subcontracting took place before the aid application.

Base 24. Justification of aid

1. Beneficiary entities shall justify compliance with the imposed conditions and the achievement of the objectives set out in the award decision through a justification report.

2. The justification report shall contain the following documentation:

a) List of expenses for the activity for which the aid is granted, identifying the creditor and the document, amount, date of issue and, where applicable, date of payment.

b) Justification report including a list of income allocated to the project or activity and any deviations from the initial budget, where applicable.

c) Nominal List of Workers (RNT) including all company employees participating in the project during either of the two months immediately preceding the date of justification. For self-employed workers assigned to the company, a Contribution Base Report (IBC) must also be submitted for each person, including the contribution for one of the two months immediately prior to the date of justification. In the case of persons assigned to other contribution schemes who are participating in the project, documentation must be provided to enable the calculation of a base similar to that of the general Social Security scheme.

d) Invoices or documents of equivalent probative value in legal and commercial transactions or with administrative effect, complying with all legal requirements. Invoices in languages other than Spanish, Basque or English must be accompanied by a translation into one of those languages. In the case of leasing, a copy of the finance lease agreement, a copy of the supplier's invoice to the financial institution and a document

committing to exercise the final purchase option for the residual value must be submitted, unless the contract already includes an obligation for the beneficiary to purchase the asset at the end of the lease.

e) Bank receipts proving payment of the invoices. Cash payments shall not be accepted. To be considered expenses eligible for aid, payments must comply with the payment deadlines set out in the applicable sectoral regulations or, failing that, those established in Law 3/2004.

f) The three offers or substitute documentation required under Article 29.3 of Provincial Regulation 5/2005 must be submitted by the beneficiary or, if subject to public procurement law, documentation proving compliance with that legislation.

g) Reports and documents proving compliance with obligations relating to dissemination, transparency, use of co-official languages, gender equality and payment deadlines.

h) Any other documentation expressly requested in the award decision.

4. For the purpose of calculating the aid, costs shall be classified into the following categories: PERSONNEL COSTS, TECHNOLOGICAL EQUIPMENT, INTELLECTUAL PROPERTY EXPENSES, SUBCONTRACTING OF SERVICES OTHER THAN SPECIALISED EXPERT SUPPORT, CONSULTANCY SERVICES AND OTHER SIMILAR SERVICES, and OTHER EXPENSES, as described in Base 6.

Base 25. Access to aid in kind

1. Access to aid in kind, once the award decision has been notified, shall take place during the implementation of the activity or project for which it was awarded.

2. As this is aid in kind, there is no entitlement to receive an equivalent monetary amount and no rights of collection may be assigned or pledged.

Base 26. Compatibility of aid

1. The aid provided for in these bases shall be incompatible with the receipt of other grants or aid for the same expenditure eligible for aid from any public administration or body, whether national or of the European Union. The beneficiary must notify the managing authority, if applicable, of any additional aid received for the implementation of the funded activities as soon as it becomes known and, in any case, before justifying use of the aid received.

2. Beneficiaries must notify LANTIK as soon as they become aware, and, in any case, prior to the justification of the use of the funds, of any other grants, aid, income or resources used to finance the activities for which the aid was granted and must provide a copy of any repayment letter issued. All of the above is for the purposes set out in Article 18.3 and 18.4 of Provincial Regulation 5/2005, to allow for the modification of the award decision and, where applicable, to begin the corresponding reimbursement procedure.

Base 27. Other obligations of beneficiaries

Beneficiaries shall have the following obligations, notwithstanding any others set out in these bases:

a) Carry out the activity or be in the situation that justified the grant of the aid.

b) Justify to LANTIK S.A.M.P. compliance with the requirements and conditions, as well as the implementation of the activity that gave rise to the aid.

d) Use the aid granted for the development of the project for which it was awarded.

e) Accept that LANTIK S.A.M.P. may request any additional documentation it deems necessary and that designated personnel may carry out any inspections or checks at its facilities in order to verify the completion of the project for which the aid was granted and compliance with the requirements.

f) Submit to any checks carried out by LANTIK S.A.M.P., and any other financial control measures that may be carried out by the Bizkaia Provincial Council, the Basque Government's Economic Control Office, the Basque Court of Public Accounts or other competent national or EU bodies, in relation to the aid received, providing any information requested in the course of the above proceedings.

g) Notify LANTIK S.A.M.P. of any change to the objective or subjective circumstances that were considered when awarding the aid, as soon as it becomes known and, in any case, before justifying the use of the funds received.

i) Ensure non-sexist use of language and images in the documents and media produced during the project.

k) Ensure the linguistic rights of citizens, particularly the use of Basque in any publications, announcements or promotional materials relating to the project.

ANNEX I – LIST OF ECONOMIC ACTIVITIES

In accordance with Base 3, one of the eligibility requirements is that at least one of the company's activities must fall under one of the following CNAE – 2025 headings. Projects not directly linked to any of the company's activities listed in this annex shall not be eligible for aid.

- Section B: Extractive industries.
- Section C: Manufacturing industry.
- Section D: Supply of electrical energy, gas, steam and air conditioning.
- Section E: Water supply, sanitation, waste management and decontamination activities.
- Section F: Construction.
- Section G: Wholesale and retail trade (except for the division indicated):
 - Division 47. Retail trade.
 - Section H: Transport and storage.
 - Section I: Accommodation and catering (except for the group indicated):
 - Group 56.3. Beverage serving activities.
 - Section J: Publishing, broadcasting, and content production and distribution.
 - Section K. Telecommunications, computer programming, consultancy, IT infrastructure and other information services (excluding companies with CNAEs in Group K62)
 - Section L. Financial and insurance activities.
 - Section N. Professional, scientific and technical activities (excluding companies with CNAEs in Group N70)
 - Section O. Administrative and support service activities (excluding the division indicated):
 - Division 80. Security and investigation services.
 - Section Q: Education (only the division indicated):
 - Division 85.6. Educational support activities.
 - Section R: Health and social services activities (only the divisions indicated):
 - Division 87. Residential care activities.
 - Division 88. Social service activities without accommodation.
 - Section S. Arts, recreation and entertainment activities (only the divisions and groups indicated):
 - Division 90: Creative, arts and entertainment activities.
 - Division 91: Library, archives, museums and other cultural activities.
 - Group 93.2: Other recreational and entertainment activities.
 - Section T. Other services (only the division indicated):

- Division 95. Repair and maintenance of computers, personal and household goods, motor vehicles and motorcycles.

ANNEX II – MAXIMUM AID INTENSITIES

The amounts of aid under this programme shall not exceed the maximum aid intensities laid down in Regulation (EU) No 651/2014, in relation to the expenses eligible for aid borne by the company as defined in Base 6, specifically:

- The aid intensity for each beneficiary shall not exceed 50% of the eligible costs for industrial research.
- Aid intensities may be increased up to a maximum of 80% of eligible costs as follows, in accordance with points a) and b) below:
 - a) by ten percentage points for medium-sized enterprises and 20 percentage points for small enterprises;
 - b) by 15 percentage points if either of the following conditions is met:
 - i) the project involves effective collaboration between companies, including at least one SME, with no company bearing more than 70% of the eligible costs.
 - ii) the results of the project are widely disseminated. Wide dissemination shall include activities whose main purpose is to:
 - Participate as a speaker at international and national public conferences to present the use case developed under the BIQAIN programme.
 - Prepare papers, articles and publications in associated scientific journals and other widely distributed publications presenting the use case developed within the BIQAIN programme.
 - Collaborate with and publish on the websites of the Bizkaia Provincial Council and corporate websites to disseminate the use case.

- Participate in dissemination events organised by or in collaboration with the Bizkaia Provincial Council to disseminate the use case developed.
- Organise dedicated events to present and discuss the use case results.

ANNEX III – BUDGET
